MODELSEARCH

for Creo Parametric and Creo Elements/Direct
for Model Manager and Windchill

GEOMETRIC SIMILARITY SEARCH IN PERFECTION

ModelSearch allows you to:

- find similar parts in PTC PLM environments and Creo
- compare parts for similarity, even live when designing
- analyze assembly structure
- detect duplicates at runtime

Great Benefits and ROIs

ModelSearch enables great benefits to all departments involved in a Product Lifecycle and a quick ROI as our Customer Success Stories show.
More on **www.techsoft.at**

„The great benefits of ModelSearch are not only evident in the design department"
Nigel Kriel,
Managing Director at Multotec
